**The CWE
 Christian Medical
 Services Ministry**

The ministry of CWE has been established to serve and better enable local churches to fulfill the Great Commission mandate with assistance to missionaries and national pastors on the foreign fields, all of whom: Churches, missionaries, and nationals, alike, are in agreement with, and will defend our doctrinal Statement of Faith. It is our desire at CWE to boldly share His gift of eternal salvation through effective and passionate evangelism, and positively impact lives through: 1) The construction of facilities to accommodate the preaching and teaching of God's Word, thereby eliminating the years of planning and construction encountered by missionaries and national pastors who time is better spent ministering to the people, and 2) The compassionate love and care of Christ facilitated by medical missions, providing for people in need of physical and spiritual healing.
